SUMMARY

Full Stack Developer skilled in building modern web applications using React.js, Next.js, Node.js, and MongoDB. Experienced in developing scalable REST APIs, designing responsive user interfaces, and optimizing backend performance. Dedicated to writing clean code and delivering reliable software solutions.

SKILLS

Languages: JavaScript, Python, C/C++, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Redux, Tailwind CSS, Socket.io

Databases: MongoDB

Tools & Methodologies: Git/GitHub, RESTful APIs, JWT, Postman, Vercel, Netlify, Agile, Data Structures

INTERNSHIP EXPERIENCE

Software Developer Intern

MAY/2025 – JUL/2025

Entity Digital Sports Pvt. Ltd

Remote

- Contributed to the development of a high-traffic sports platform, successfully supporting 1,000+ concurrent users.
- Engineered 10+ scalable RESTful APIs utilizing Node.js and Express.js to enhance backend data processing.
- Built real-time match update functionality implementing Socket.io for low-latency communication.
- Streamlined MongoDB queries, significantly improving overall backend response efficiency by 20%.
- Collaborated within Agile sprint cycles to troubleshoot critical issues and rapidly deploy production-ready features.

Frontend Developer Intern

JUL/2023 – AUG/2023

Mayug Pvt. Ltd

Remote

- Created 12+ reusable React components, establishing UI consistency and accelerating development workflows.
- Applied advanced code splitting and lazy loading techniques, successfully reducing initial page load times by 25%.
- Integrated secure authentication systems via JWT and consumed complex RESTful API endpoints.
- Enhanced user experience through responsive UI improvements and comprehensive cross-device compatibility testing.

PROJECTS

Comprehensive Video Converter Application

- Architected and developed a full-stack video converter application managing complex media processing workflows.
- Designed robust backend infrastructure and integrated responsive frontend components for seamless user interaction.

AI RAG (Retrieval-Augmented Generation) Chatbot

- Developed an intelligent chatbot leveraging LLMs and RAG architecture to provide accurate, context-aware responses.
- Integrated vector databases and optimized the data retrieval pipeline to improve answer accuracy and reduce latency.

SD Fitness – Gym Business Website

- Built a full-stack fitness platform featuring membership, trainer, and workout management modules.
- Designed RESTful APIs and connected MongoDB for efficient, scalable data handling and responsive architecture.

EDUCATION

B.Tech in Computer Science Engineering

2022 – 2026

Government Engineering College Jhalawar

Jhalawar, Rajasthan

Class XII (PCM)

2020 – 2021

Government Senior Secondary School Jhalawar

Jhalawar, Rajasthan
